La nuova collezione di porte e sistemi scorrevoli è stata realizzata da architetti e designers per il mondo dell'interiors. Citydoors è una preziosa collezione di porte scorrevoli, battenti e a scomparsa ideata e realizzata per offrire soluzioni che diano fluidità tra le varie aree della casa distinguendosi per personalità ed eleganza. Ogni prodotto è progettato come un sistema architettonico flessibile e innovativo in grado di connotare un ambiente conferendogli sapore grazie all'uso sapiente di materiali high-tech come l'alluminio e il vetro.

The new collection of sliding doors and systems was designed by architects and interior designers. Citydoors is a fine collection of sliding, hinged and pocket doors conceived and built to offer solutions that merge the various areas of the house together with distinctive, elegant personality. Every product is designed as a flexible and innovative architectural system capable of characterising an environment with good taste through clever use of high-tech materials such as aluminium and glass.

La nouvelle collection de portes et de systèmes coulissants a été réalisée par des architectes et des designers pour le monde de l'Intérieur. Citydoors est une riche collection de portes coulissantes, battantes et escamotables conçue et réalisée pour offrir des solutions en mesure de créer une bonne fluidité entre les différentes parties de la maison, et qui se distinguent par leur élégance et leur personnalité. Chaque produit est étudié comme un système architectural flexible et innovant capable de personnaliser une pièce, en lui donnant une saveur spéciale grâce à l'utilisation savante de matériaux high-tech comme le verre et l'aluminium.

01

PORTE SCORREVOLI SOSPESE

Sliding Doors Top Hanged / Portes Coulissantes Suspendues

For a more fluid and dynamic space, the sliding panels put rooms in communication with one another with lightness and precision. Their thin aluminium frames ensure an essential form and delimit the space at the same time. They are truly architectural elements capable of characterising all environments and functions with attractive material and colour effects of extraordinary beauty.

Pour rendre un espace plus fluide et dynamique, les panneaux coulissants permettent aux pièces de communiquer avec rigueur et légèreté. Le cadre en aluminium mince garantit une grande netteté formelle tout en définissant l'espace. Il s'agit d'un véritable élément architectural, en mesure de caractériser chaque pièce et sa fonction, tout cela avec des effets matériels et chromatiques intéressants, d'une beauté originale.

Per uno spazio più fluido e dinamico i pannelli scorrevoli mettono in comunicazione gli ambienti con leggerezza e rigore. Il sottile telaio in alluminio garantisce grande pulizia formale e allo stesso tempo definisce lo spazio. Si tratta di un vero e proprio elemento architettonico in grado di caratterizzare ogni ambiente e funzione, il tutto con effetti materici e cromatici interessanti, di originale bellezza.

I sistemi scorrevoli di straordinaria versatilità permettono di creare nuovi scenari con effetti di grande leggerezza. Gli ambienti della casa e dell'ufficio si trasformano: la cucina si fonde con eleganza nell'area pranzo. La camera da letto ospita la cabina armadio con un sofisticato gioco di colori e riflessi. L'ufficio diventa raffinato e funzionale grazie alle pareti divisionali.

The highly versatile sliding systems enable new, extremely light scenarios to be created. The rooms of the home and office are transformed: the kitchen blends elegantly into the dining area. The bedroom houses the walk-in closet with a sophisticated mix of colours and reflections. The dividing walls give the office a refined and functional appearance.

Les systèmes coulissants, d'une polyvalence extraordinaire, permettent de créer de nouveaux scénarios avec des effets d'une grande légèreté. Les pièces de la maison et du bureau se transforment : la cuisine fusionne élégamment avec l'espace à manger. La chambre à coucher accueille le dressing dans un jeu sophistiqué de couleurs et de reflets. Le bureau devient raffiné et fonctionnel grâce aux murs de séparation.

L'architettura moderna e i nuovi stili di vita richiedono sempre più soluzioni in grado di integrarsi con perfetto mimetismo in ogni ambiente. L'utilizzo sapiente dell'alluminio dona leggerezza ai pannelli scorrevoli grazie a profili che garantiscono un minimo impatto visivo e grande pulizia formale. Soddisfare nuove esigenze e creare soluzioni a misura attraverso un progetto d'interni con elementi scorrevoli e porte di design è il fulcro della nostra ricerca aziendale.

Modern architecture and new lifestyles increasingly require solutions capable of fitting in perfectly with all kinds of environment. Clever use of aluminium gives a light look to sliding doors through profiles that guarantee a minimum visual impact and an extremely essential design. Satisfying new needs and creating tailor-made solutions through an interior design with sliding elements and designer doors is the keystone of our company's research.

L'architecture moderne et les nouveaux modes de vie demandent de plus en plus de solutions en mesure de s'intégrer avec un camouflage parfait dans chaque environnement. L'emploi savant de l'aluminium donne de la légèreté aux panneaux coulissants, grâce à des profils qui garantissent un impact visuel minimum et une grande netteté formelle. L'objectif principal de notre recherche d'entreprise est de satisfaire de nouvelles exigences et de créer des solutions sur mesure, grâce à un projet d'intérieurs avec des éléments coulissants et des portes de haut design.

Magica Top Hanged Sliding Door, Silver Aluminium Finish, Satin Extralight Glass
Magica Porte Coulissante Suspendue en Aluminium Argent, Verre Satiné Extra-clair

La progettazione di un'area "home and office" richiede un'attenzione particolare nell'utilizzo dei colori e dei materiali. I grandi pannelli scorrevoli su una o più vie possono indossare diverse finiture, dall'alluminio anodizzato argento al laccato bianco o brown. Il progetto esprime la propria originalità grazie alle molteplici sfumature di trasparenza e alle sue caratteristiche peculiari come la luminosità e la leggerezza.

The design of a "home and office" area requires particular attention in the use of colours and materials. The large single or multiple panels are available in several finishes, from silver anodized aluminium to a white or brown lacquer finish. The design expresses its originality through multiple shades of transparency and its particular characteristics such as brightness and lightness.

La conception d'un espace « home and office » requiert une attention particulière dans l'utilisation des couleurs et des matériaux. Les grands panneaux coulissants sur un ou plusieurs rails peuvent avoir différentes finitions, de l'aluminium anodisé argenté au laqué blanc ou marron. Chaque projet exprime sa propre originalité grâce aux nombreuses nuances de transparence et à ses caractéristiques propres, comme la luminosité et la légèreté.

Nell'architettura moderna nascono nuovi spazi per il contenimento, sapientemente separati da pannelli scorrevoli che garantiscono continuità visiva e formale. Le innovative soluzioni divisionali creano lo spazio adatto ad ospitare grandi e piccole cabine armadio configurate ad hoc con attrezzature interne di particolare pregio, esaltate da trasparenze e riflessi che solo il vetro può garantire.

Modern architecture is evolving with new containment areas, cleverly separated by sliding panels that guarantee visual and formal continuity. The innovative dividing solutions create the space for housing large and small walk-in closets configured ad hoc with fine internal fittings, enhanced by various degrees of transparency and reflections that glass alone can give.

Dans l'architecture moderne naissent de nouveaux espaces pour le rangement, savamment séparés par des panneaux coulissants qui garantissent la continuité visuelle et formelle. Les solutions de séparation innovantes créent l'espace adapté pour loger de petites et grandes penderies spécialement configurées avec des équipements internes particulièrement beaux, rehaussés par les reflets et les transparences que seul le verre peut garantir.

PORTE SCORREVOLI A TERRA
Bottom Rolling Doors - Portes Coulissantes au Sol

The large sliding panels with an aluminium frame are designed in such a way as to create functional areas like large wings of a theatre capable of putting spaces into communication with one another lightly. There are numerous solutions that can be adapted in each individual case to large working areas or modern household spaces also through fine lacquered chipboard and glossy or satin plate glass finishes to create a refined and elegant environment.

Les grands panneaux coulissants avec cadre en aluminium sont conçus pour permettre la création de zones fonctionnelles, comme de grandes coulisses de théâtre en mesure de mettre les espaces en communication avec légèreté. Il existe de nombreuses solutions créatives, adaptées au cas par cas aux grands environnements de travail ou aux espaces d'habitation contemporains, grâce à de précieuses finitions en mélaminé laqué et en verre brillant ou satiné, pour un intérieur élégant et raffiné.

I grandi pannelli scorrevoli con telaio in alluminio sono progettati per consentire la creazione di aree funzionali come una grande quinta teatrale in grado di mettere in comunicazione gli spazi con leggerezza. Numerose sono le soluzioni creative adatte di volta in volta ai grandi ambienti di lavoro o agli spazi domestici contemporanei, grazie anche alle preziose finiture in nobilitato laccato e cristallo lucido o satinato per un ambiente raffinato ed elegante.

PORTE SCORREVOLI A SCOMPARSA

Pocket Doors - Portes Escamotables

The new collection of aluminium pocket doors makes the most of the new modern living and design trend. In its flush-to-the-wall version, the element completely disappears in the surrounding space. The panel appears as a line that defines its outline. The lightness of the aluminium, proposed in multiple finishes set alongside to the refined plate glass, creates zones of continuous light or "windows" with an extremely stylish effect.

La nouvelle collection de portes escamotables en aluminium interprète pour le mieux la nouvelle tendance de l'habitat moderne et de design. Dans la version au fil du mur, l'élément disparaît complètement dans l'espace environnant. Le panneau apparaît comme une ligne qui en définit les contours. Grâce à la légèreté particulière de l'aluminium, qui est proposé en de nombreuses finitions assortit au verre, plus raffiné, il se crée des zones en lumière continue ou bien des « fenêtres » d'un effet recherché.

La nuova collezione di porte a scomparsa in alluminio interpreta al meglio la nuova tendenza dell'abitare moderno e di design. Nella versione filo muro l'elemento scompare completamente nello spazio circostante. Il pannello appare come una linea che ne definisce i contorni. Grazie alla particolare leggerezza dell'alluminio, proposto in molteplici finiture accostate al raffinato cristallo, si creano zone in continuità di luce o "finestre" dal ricercato risultato.

In presenza di un ambiente bagno, dalle dimensioni ridotte, si rende necessaria l'ottimizzazione dello spazio. Le porte scorrevoli a scomparsa interno muro rappresentano la soluzione ideale a questa frequente esigenza. Nel bagno l'alluminio è il materiale per eccellenza più igienico e funzionale, oltre ad essere completamente ecologico. La versione filo muro ha un effetto di grande leggerezza e rigore scomparendo completamente nella parete che lo ospita.

In a small bathroom, space has to be optimised. Doors that slide into the walls are the ideal solution. In bathrooms, aluminium is the most hygienic and functional material par excellence, as well as being completely ecological. The flush-to-the-wall version has an extremely light and essential effect, disappearing into the wall.

Dans le cas d'une salle de bains aux dimensions réduites, l'optimisation de l'espace est nécessaire. Les portes coulissantes escamotables à l'intérieur du mur représentent la solution idéale pour cette exigence très fréquente. Dans la salle de bains l'aluminium est le matériau par excellence, non seulement le plus hygiénique et fonctionnel mais aussi complètement écologique. La version au fil du mur donne un effet de grande rigueur et légèreté, en disparaissant complètement dans le mur qui l'abrite.

PORTE A BATTENTE
Hinged Doors - Portes Battantes

The contemporary style has a minimalist mark. The doorpost and hinged door give the environment an extremely essential design. The door becomes an architectural and design item capable of delimiting the space in such a way as to enhance a vast choice of materials and lacquered colours.

Le style contemporain est apparenté à un signe minimaliste. Le chambranle et la porte battante donnent un effet de très grande netteté formelle. La porte devient un véritable objet architectural et de design, en mesure de définir l'espace en soulignant un vaste choix de bois et de couleurs laquées.

Lo stile contemporaneo è affine ad un segno minimalista. Lo stipite e l'anta battente hanno l'effetto di grande pulizia formale. La porta diventa un vero e proprio oggetto architettonico e di design in grado di definire lo spazio dando risalto ad una vasta scelta di essenze e colori laccati.

Design e architettura moderni prediligono l'uso del vetro per la grande varietà di finiture applicabili come i cristalli reflex, i vetri satinati e opalini, trasparenti e fumè. La grande varietà cromatica che spazia dalle raffinate trasparenze ai toni tenui e naturali fino ai colori puri, esprime enorme potenzialità espressiva per soddisfare ogni possibile interpretazione con esiti materici e cromatici interessanti, di originale bellezza.

Modern design and architecture favour the use of glass due to the wide range of finishes available such as reflex plate glass, and satin, opal, transparent and smoked glass. The wide variety of colours that range from refined transparencies to soft, natural colours and pure colours, expresses enormous potential to satisfy every possible need with attractive material and colour effects of original beauty.

Le design et l'architecture modernes préfèrent l'usage du verre, pour la grande variété de finitions applicables, comme les vitres Reflex, les vitres satinées et opales, transparentes et fumées. La grande variété chromatique, qui va des transparences raffinées aux tons délicats et naturels, jusqu'aux couleurs pures, exprime d'énormes potentialités d'expression pour satisfaire toutes les interprétations possibles avec des résultats matériels et chromatiques intéressants, d'une beauté originale.
